WORK EXPERIENCE

Web Developer Intern & UI/UX Designer **Jan 2026 - March 2026**

Academic (OJT)

- Developed responsive web applications using React.js, Node.js, PHP, HTML, CSS, and JavaScript to deliver functional and user-friendly project solutions.
- Designed intuitive interfaces and prototypes using Figma, improving usability and creating consistent experiences across desktop and mobile devices.
- Integrated MySQL and PostgreSQL databases and resolved application issues to maintain reliable functionality and efficient data handling.

IT Staff Intern **Jan 2026 - March 2026**

Academic (OJT)

- Diagnosed and resolved hardware, software, and system issues to restore functionality and minimize user disruption.
- Installed and configured operating systems, software, drivers, and computer peripherals to ensure devices were properly set up for daily use.
- Provided technical assistance and performed routine system maintenance to support users and maintain stable computer operations.

PROJECTS

Full-Stack Development | AI-Assisted Development **November 2025 - Present**

React.js, Node.js, JavaScript, PHP, C#, .NET, WPF, HTML, CSS, MySQL, PostgreSQL

- Developed full-stack web and desktop applications, building responsive user interfaces, server-side functionality, and a C#/.NET WPF game launcher designed for computer shop environments.
- Integrated MySQL and PostgreSQL databases with backend services while leveraging AI-assisted development tools for debugging, code refinement, and efficient feature implementation.

EDUCATION

2022 - 2026

ICCT Colleges Foundation Inc.

Bachelor of Science in Information Technology - Cum Laude

SKILLS

- Proficient in full-stack web development, including frontend and backend development, database integration, and responsive web design.
- Skilled in computer troubleshooting and technical support, including hardware/software installation, system maintenance, and end-user assistance.
- Experienced with AI-assisted development, using AI tools to support coding, debugging, problem-solving, and development workflows.
